December, 1924

State of Montana  
State Board of Examiners

Helena, Montana,  
December 18, 1924.

To the Members of the Senate and the  
House of Representatives of the  
Nineteenth Legislative Assembly  
of the State of Montana.

Gentlemen:

In accordance with Chapter 20 of the Revised Codes of  
1921, known as the Budget Act of the State of Montana, the  
State Board of Examiners herewith transmits to you the  
1925 State Budget as required by the provisions of said Act.  
Respectfully submitted,

JOS. M. DIXON,  
Chairman,

C. T. STEWART,  
Secretary,

L. A. FOOT,  
Attorney General.

Attest:  
A. E. McFATRIDGE.

# To the Honorable Board of Examiners

Gentlemen:

In accordance with the provisions of the Budget Act, copy of which is contained herein, I present herewith to your Honorable Body the 1925 Budget

The Income and Expenditures, contained herein, have been carefully compiled from the records of the State Accountant's and State Auditor's offices. The items under the column Allowed represent the amount allowed by the previous legislature for the present fiscal year. The Requests were prepared by the heads of the different departments as the amounts necessary to carry on the work for the next two years.

It is with regret that I cannot furnish your Honorable Body with a complete Asset and Liability Statement of the State of Montana, showing an inventory of values as compiled by the institutions and departments, as provided in the Eighteenth Session Laws, Chapter 66. The Purchasing Agent has used every effort to have this information available but which will not be complete for compilation for this Budget.

It has been the experience of the two former State Accountants as contained in their printed Budget, that it was necessary that some legislation be provided for some measure of supervision over expenditures before the time they are incurred. This recommendation was also made by the State Auditor in his Biennial Report under date of November 9, 1922.

I call attention to the report of the Trade and Efficiency Commission of November 1, 1919, page 47, wherein, they recommend centralized control of State Business with the same idea in mind. During the past year some of our institutions

have had collections for Self Supporting Activities part of which had heretofore been deposited with the State Treasurer. The expenditures from these activities were not made thru the Auditor's office, hence no record of such expenditures appear in that department. This provision was contained in House Bill No. 400 of the Eighteenth Session and again in the House Bill No. 10 of the Extraordinary Session but the records of the State Auditor do not in any way give this desired information. These Funds cannot be construed as trust funds as it is a part of the work of the institution to which it applies, and which in former years came under the appropriation or fund allowance.

It is therefore obvious that if the Budget System is to be of value, some centralized system of control must be authorized. It is also obvious that, in the interest of economy, no purchases or claims of any nature be authorized or allowed except wherein the board of control has passed on the necessity for the expenditure and determined that the department has not exceeded the allowance of expenditures as authorized by the legislature.

Our former legislatures have appropriated in lump sums, which seems to meet with approval in many state, however, some provision should be made limiting the amount that may be spent for Capital. The tendency is to exhaust the appropriation by purchasing supplies for the succeeding year or expenditures for Capital. No one can definitely forecast the future, hence, the legislature in its wisdom provides what they think necessary, however, appropriations are maximum allowances and not compulsory expenditures.

WILLIAM HOSKING,  
State Accountant.

# BUDGET LAW

## Chapter 205—Session Laws, 16th Legislative Session

“An Act to Provide a Budget System for the Control of all Expenditures of State Money.”

**Be it enacted by the Legislative Assembly of the State of Montana:**

Section 1. This Act shall be known, and may be cited as, the “Budget Act.”

Section 2. Each department of the State government and all State institutions and agencies requiring an annual appropriation from the State, shall present a request therefor to the State Board of Examiners on or before the 15th day of November of each year preceding a regular session of the Legislative Assembly.

Section 3. Such request shall be made by the head of such department, institution or agency, and in the case of the judiciary, it shall be made by the Clerk of the Supreme Court under the direction of the Chief Justice of the Supreme Court.

Section 4. All requests for appropriations shall be made upon blank forms to be furnished by the Auditor and approved by the State Board of Examiners. The blank forms shall be filled in according to the rules adopted by the State Board of Examiners. Upon the receipt of the requests for appropriations, the State Board of Examiners shall proceed to examine such requests and reports for the purpose of determining the necessity of the appropriations so requested.

Section 5. The Legislative Assembly shall not appropriate any money out of the State Treasury except in accordance with the following provisions:

(a) Every appropriation bill shall be either a “Budget Bill,” or a “Supplementary appropriation Bill,” as hereinafter mentioned.

(b) BUDGET—Within ten days after the convening of the Legislative Assembly, the State Board of Examiners shall submit to the House of Representatives and to the Senate two budgets, one for each of two ensuing fiscal years. Each budget shall contain a complete plan of proposed expenditures and estimated revenues for the particular fiscal year to which it relates; and shall show the estimated surplus or deficit of revenues at the end of such year. Accompanying each budget shall be a statement showing: (1) The revenues and expenditures for each of the two fiscal years next preceding; (2) The current assets and liabilities, reserves and surplus or deficit of the State; (3) All debts and the amount of all moneys in the State Treasury to the credit of each fund; (4) Any explanation the Board of Examiners may desire to make as to the important features of any budget and any suggestions as to the methods for the reduction or increase of the State’s revenue.

(c) Each budget shall be divided into two parts, and the first part shall be designated “Governmental Appropriations” and shall embrace an itemized estimate of the appropriations for each of the two ensuing fiscal years; (1) For the Legislative Assembly showing the amounts necessary to pay the mileage and per diem of each member and officers and attaches and the several items for necessary incidental expenses; (2) For the Executive Department, as provided by law; (3) For the Judiciary Department, as certified to by the Clerk of the Supreme Court, herein provided, and as provided by law; (4) To pay and discharge the principal and interest of any bonded indebtedness of the State of Montana; (5) For the salaries payable by the State under the Constitution and laws of the State; (6) For the establishment and maintenance throughout the State of a thorough and efficient system of public schools, so far as the same may be necessary, in conformity with the Constitution and laws of the State; (7) For such other purposes as are set forth in the Constitution of the State.

(d) The Second part of the budget shall be designated "General Appropriations," and shall include all other estimates and appropriations.

Section 6. The State Board of Examiners shall deliver to the presiding officer of the House of Representatives and of the Senate the budgets for all the proposed appropriations, clearly itemized and classified on or before the 10th day of each session; and the presiding officer of the House of Representatives and of the Senate shall promptly refer said budgets to the proper committee. The General Appropriation Bill for the maintenance of the several departments of the State Government and the several State institutions shall be based upon the Budget so submitted; and the Legislative Assembly may amend the budgets by increasing or diminishing the items therein, except that the Legislative Assembly shall not amend the budgets so as to affect either the obligations of the State or the payment of any salaries required to be paid by the Constitution and laws of the State.

Section 7. The State Board of Examiners and representative of the executive departments, boards, officers, commissions, and institutions of the State, and other State agencies, expending or applying for State moneys, shall have the right, and when requested by either the House of Representatives or the Senate, it shall be their duty to appear and to be heard with respect to any Budget Bill during the consideration thereof, and to answer inquiries relative thereto.

Section 8. SUPPLEMENTARY APPROPRIATION BILLS. Neither the House of Representatives nor the Senate shall consider any other appropriations until the Budget Bill has been finally acted upon by both houses, and no other appropriation shall be valid unless in accordance with the following provisions: (1) Every such appropriation bill shall be embodied in a separate bill limited to some single work, object or purpose, therein stated and called a Supplementary Appropriation Bill; (2) No Supplementary Appropriation Bill shall become a law unless it is passed in each house by a two-thirds vote of all members and the ayes and nays recorded on its final passage.

Section 9. GENERAL PROVISIONS. (1) If the General Appropriation Bill based upon the budgets shall not have been finally acted upon by both House of Representatives and the Senate on or before the 30th day of the session of the Legislative Assembly, then such General Appropriation Bill shall be considered to the exclusion of all other bills until the same shall have been finally acted upon by both the House of Representatives and the Senate; (2) The State Board of Examiners for the purpose of making up the Budget Bill, shall have the power, and it shall be its duty to require from the proper State officials, including herein all executive departments, all executive and administrative officers, bureaus, boards, commissions, and agencies expending or supervising the expenditure of, and all institutions applying for State moneys and appropriations, such itemized statements and other information, in such form and at such times as the board shall direct; (3) Each member of the Legislative Assembly upon introducing a Supplementary Appropriation Bill shall present to the Clerk an extra copy of such bill, which shall be transmitted to the State Board of Examiners, which shall within five (5) days from the receipt thereof return the same to the clerk, with recommendations and suggestions in connection with such appropriation to be transmitted to the committee to which the Bill has been referred.

Section 10. The State Board of Examiners shall have printed before the 10th day of each session of the Legislative Assembly the Budgets provided for herein, and shall distribute copies of the same to the members of the Legislative Assembly and to all the State departments, institutions and agencies.

Section 11. All Acts and parts of Acts in conflict herewith are hereby repealed.

Section 12. This Act shall be in full force and effect from and after its passage and approval. Approved March 11, 1919.

# BUDGET LAW

## Chapter 162—Session Laws, 17th Legislative Assembly

An Act to Amend Section 5, of Chapter 205, Session Laws of the Sixteenth Legislative Assembly, the Same Being, "An Act to Provide a Budget System for the Control of all Expenditures of State Money."

**Be it enacted by the Legislative Assembly of the State of Montana:**

Section 1. That Section 5, of Chapter 205, Session Laws of the Sixteenth Legislative Assembly be, and the same is hereby amended so as to read as follows:

"Section 5. The Legislative Assembly shall not appropriate any money out of the State Treasury except in accordance with the following provisions:

(a) Every appropriation bill shall be either a "Budget Bill," or a "Supplementary Appropriation Bill," as herein-after mentioned.

(b) Budget. Within ten days after the convening of the State Legislative Assembly, the State Board of Examiners shall submit to the House of Representatives and to the Senate, a budget which shall contain a statement showing:

1. The total revenues and expenditures of the State for the preceding biennial period, and the estimated revenues and expenditures for the succeeding biennial period.

2. The current assets and liabilities, reserves, and surplus or deficit of the state.

3. All debts, and the amount of all moneys in the State Treasury to the credit of each fund.

4. The revenues, expenditures and balances for the preceding biennial period and the estimated revenues and expenditures for the succeeding biennial period; also the amounts which the Board of Examiners recommend, item for item, with columns, showing whether the recommended allowances are equal to, above or below the amounts of the preceding biennial period, for each office or department,

with explanatory statements from each office or department, showing their reasons for any requested increase, and statements from the Board of Examiners giving their reasons for recommending the allowances or disallowances. Such budget shall be printed with the recommendations and reasons for recommendations, and the record of the vote upon such recommendations, where such vote is not unanimous.

(c) The budget shall be divided into two parts, and the first part shall be designated "Governmental Appropriations" and shall embrace an itemized estimate of the appropriations for each of the two ensuing fiscal years: (1) For the Legislative Assembly showing the amounts necessary to pay the mileage and per diem of each member and officers and attaches, and the several items for necessary incidental expenses; (2) For the Executive Department, as provided by law; (3) For the Judiciary Department, as certified to by the Clerk of the Supreme Court, herein provided, and as provided by law; (4) To pay and discharge the principal and interest of any bonded indebtedness of the State of Montana; (5) For the salaries payable by the State under the Constitution and laws of the State; (6) For the establishment and maintenance throughout the State of a thorough and efficient system of public schools, so far as the same may be necessary, in conformity with the Constitution and laws of the State; (7) For such other purposes as are set forth in the Constitution of the State.

(d) The Second Part of the budget shall be designated "General Appropriations," and shall include all other estimates and appropriations.

Section 2. All Acts and parts of Acts in conflict herewith are hereby repealed.

Section 3. This Act shall be in full force and effect from and after its passage and approval. Approved March 5, 1921.

November 17, 1924.

Wm. Hosking,  
State Accountant,  
Helena, Montana,

Dear Sir:

In accordance with instructions contained in your communication of the 25th ultimo, I am attaching herewith request of this department for the 1925 Legislative Budget in five pages.

Attached to this budget you will find the statement showing the income of this department from its general fees, and the Motor Vehicle Administration Department, these being the only two divisions which fall under this requirement. Fees received from the general department are the only fees which are credited to the General Fund of the State.

Yours very truly,

C. T. STEWART,

Secretary of State.

CLW-jed.  
Encl.

**Estimate of Income Department of Secretary of State:**

Executive Department .....	\$ 72,000.00
Motor Vehicle Registration Department.....	772,000.00
TOTAL.....	<u>\$844,000.00</u>

November 10, 1924.

Hon. Wm. Hosking,  
State Accountant,  
Helena, Montana.

My dear Mr. Hosking:

I submit herewith request for appropriation for the Department of the Attorney General for the biennium commencing July 1, 1925.

Account No. 1112 is raised from \$9,000 to \$12,600 as the latter amount is the total salaries of Assistants Attorney General, as provided by law, to wit: First Assistant, \$3,600; three assistants at \$3,000 each.

Account No. 1115 is reduced to \$2,100 as I believe that sum will cover the item.

Account No. 1142 is fixed at \$2,500 which is a slight raise over the corresponding item for the current year. It covers the publication of the volume of Opinions of the Attorney General and is \$436.60 less than the cost of publishing Vol. 9 of said opinions.

Account No. 126 is estimated at \$100 for each year and covers the office subscription to legal publications such as Corpus Juris, Pacific Reporter, etc.

Account No. 135 is also estimated at \$100 for each year but will vary as is indicated by corresponding accounts from the 1921 and 1923 budgets.

Very truly yours,

LAF:S  
Enc.

L. A. FOOT.

November 6th, 1924.

Mr. William Hosking,  
State Accountant,  
Building.

Dear Sir:

As requested in your letter of the 25th ult., we are returning herewith the budget sheets with the figures inserted for the fiscal years ending June 30th, 1926 and 1927.

These estimates conform to the appropriations allowed by the Legislature before the governor arbitrarily made a reduction of fifteen (15) per cent, which resulted in depriving this department of the services of an auditor in our Department of Public Utilities and most essential to the proper conduct of the affairs of that office. Furthermore, we have been obliged to forego attending conferences, hearings, etc., at outside points on account of lack of this appropriation. Neither have we been able to keep up our popular railroad map of Montana, the last edition of which was printed in 1921. Our supply of maps has been entirely exhausted for some time. We have supplied the schools of the State, public buildings, business houses and others with an accurate map of Montana, free of charge, and which costs the state but a few cents, and would have otherwise cost the purchaser about \$3.50 each.

For these reasons we respectfully ask that our appropriation be not reduced below the figures herewith submitted, namely \$60,000.00 for the first year and \$56,580.00 for the second year, the difference being on account of our map issue, which should come out of the first year's appropriation, estimated to cost \$3,420.00.

Very truly yours,

BOARD OF RAILROAD COMMISSIONERS AND  
PUBLIC SERVICE COMMISSION OF MONTANA.

E. G. Toomey, Secretary.

rfm-y

NOTE

1. Supplemental activities and indemnity to be paid out of Livestock Sanitary Board Fund No. 262.

2. For the payment of claims against the Livestock Sanitary Board Fund to be paid from the Livestock Sanitary Board Fund, as much as may be required.

3. For the payment of claims against the Livestock Sanitary Board Emergency Fund to be paid from the Livestock Sanitary Board Emergency Fund, only when an emergency is declared to exist by the Livestock Sanitary Board and the State Board of Examiners, as much as may be required.

a—Salary Fixed by Law.

\*—Group Totals.

NOTE NO. 1

The Commission finds it impossible to estimate the aggregate amount to be paid out of the Bounty Fund during the coming biennium, this amount depending upon the revenue from the special tax for this purpose, for which reason the space is left blank.

NOTE NO. 2

No basis exists for estimating the amount of estray stock payments, nor the income to the Estray Fund, for which reason this space is left blank.

November 13, 1924.

Mr. William Hosking,  
State Accountant,  
State Capitol.

Dear Sir:

I hereby transmit proposed budget of the State Board of Health in detail for the two years ending June 30, 1927. We have asked for some increases, particularly in the epidemiological division and the water analysis and laboratory divisions. The last legislature cut our appropriation very mardedly. In order that the work might be maintained, the matter was taken up with the Rockefeller Foundation and we were able to secure \$8,000 from this organization but this money is only available up until June 30, 1925. If the work that is required by law is to be continued efficiently, the money must be appropriated by the state.

On account of the consolidation of the laboratories at Helena, we do not ask for any appropriation for the water and sewage laboratory, but we do ask a slight increase for the division of food and drugs to cover expenses for laboratory work here.

**Estimated Revenue from State Board of Health**

For Licenses .....	\$ 6,000	\$ 6,200
For Water Analysis Fees.....	4,000	4,000
	<hr/>	<hr/>
	\$10,000	\$10,200

This money goes into the General Fund of the state.

If any further explanations are required, I will be very glad to give them.

Yours very truly,

W. F. COGSWELL,

Secretary.

WFC-JB

November 13, 1924.

Gentlemen:

Since January, 1922, the National Guard in Montana has increased from practically nothing to a complete regiment. Since July, 1923, the personnel of the guard has increased about one hundred per cent, and the appropriations allowed this office for the upkeep of the National Guard for the past two years have not been sufficient to properly take care of this increase. In many instances the guard has had to suffer. Therefore, it will be noted from my request that I have asked for a larger appropriation.

The National Guard will be steadily increasing for the next two years. In order to bring the National Guard organization up to the allotted strength fixed by the War Department, it will be necessary to provide an additional appropriation for two battalions of combat engineers, consisting of four companies, a battalion headquarters company each and a regimental headquarters and headquarters companies, in addition to eleven organizations with forty-one officers.

For the present organization consisting of one infantry regiment with approximately eleven hundred and fifty men, the Federal Government has furnished during the past year approximately \$215,000.00 in cash. This includes armory drill pay, expenses of camps of instruction, expenses of instructors, sergeant-instructors, and construction of rifle ranges, etc. It has also furnished in the neighborhood of one million dollars' worth of equipment and property. To increase the guard to the allotted strength will increase the personnel to approximately two thousand two hundred officers and enlisted men and will bring into the State each year in the neighborhood of \$400,000.00 Federal money.

An explanation of the funds requested by item follows: You will note that there has been a request for a slight increase in items 1122, 1123, 1124 and 1125. This is necessitated by the growth of the National Guard in the state and the consequent increase of business in this office. In regard to item 1126, uniform allowance, the law provides that mounted officers shall receive fifty dollars per year and dismounted officers, thirty-five dollars per year for uniform allowance. The amount allowed in the last budget was not sufficient to cover this item and with the contemplated increase in the National Guard, the amount requested, \$3,500, will be necessary. The next item, quarterly allowance, is provided for by law. Each company is entitled to fifty dollars per month or \$600.00 per year for the rental of suitable quarters. The amount provided in the last budget is less than half enough to cover this item of expenses with the present organization. For the fiscal year July 31, 1926 to June 30, 1927 I have requested \$13,000, which I consider very conservative when a contemplated increase in the National Guard is considered. The next item, examining men for company, covers the expense of physical examination of recruits enlisted in the National Guard. The Federal Government requires that men be presented physically fit

for enlistment and it is necessary that the State stand this item of expense. As you will note, in the past two years this item has ranged in the neighborhood of \$600.00. The growth of the guard has been slow during this period and at the present time there is demand for National Guard companies in various towns throughout the State and the increase is bound to be more rapid than during the past two years. For this reason, I have asked for an additional appropriation for this item. The item, 115, official bonds; the law requires that officers responsible for property be bonded. During the past two years the appropriation has been so small that no funds were available for this purpose. Each company commander is responsible for the property in his charge and under the law should be bonded for an amount sufficient to cover that property. For this reason the increase in the appropriation has been requested. Item 1191, State shoot expenses; during the past two years, the State Shoot has been conducted almost entirely upon Federal funds because of the fact that our state appropriation was so small. Our National team has done remarkably well considering the fact that they have had no preliminary training. In most states after the state shoot has been completed, the National team is kept in camp from one to two weeks and given an opportunity to practice together before going to Camp Perry for the National shoot. For this purpose and also to cover some other incidental expenses which have been paid from my own pocket and from regimental funds, I have requested an increase in this item. The next item, meals, pertains to the same thing, as it is necessary to bring some men into Helena in advance of the State shoot in order to prepare the rifle range for the shoot. In the past it has been customary to bring from eight to ten enlisted men for this purpose, because of the fact that they have been paid from Federal funds, rather than hiring civilians and as there are too few to set up a mess for them at the range, they have been fed at the local restaurants. Our team next year will be larger than in the past and will necessitate more preparation prior to the shoot. For this reason an increase has been requested. The next item, 1193, dues for Adjutants General Association; these dues are \$20.00 per year. However for the past two years the treasury of the association has been in such excellent condition that the dues have been waived. This may be the case in the next two years but to assure our ability to pay dues when they are called for, I have requested \$20.00 for both fiscal years. Item 311, Salaries and Wages, under the State Armory expenses; during the past two years we have had one man employed at the State Armory and it has been absolutely necessary that additional help be procured but for the most part, he has handled the business entirely by himself. During that time he has received and distributed the equipment for an entire regiment. In addition to this it is necessary for him to account to the Federal government for all this equipment. He has kept stock record cards of the issue of equipment to all individuals in the National Guard. He must account for all Federal monies expended; he must re-

ceive requisitions from the various companies, consolidate them and transmit them to the government depots which furnish the supplies. During the past two years he has accomplished wonders, but the business of the guard has reached the stage where it is impossible for one man to handle all this work. An assistant is absolutely necessary and for this reason I have asked for an increase in this item. Item 313, Traveling Expense; from time to time it is necessary for the officer in charge of the armory to make a trip of inspection to some company for the purpose of auditing their accounts. For this reason a request for a slight increase in this item has been made. Item 314, printing, and binding publications; it is necessary from time to time for the officer in charge of the armory to have some blank forms printed. In the past this has been paid for from the appropriation for the support of the Adjutant General's Office. In order to have this account charged to the proper department, I have made a request for a \$100.00 for each of the fiscal years in connection with this item. Under, repairs and replacements, item 332, buildings and attached fixtures; there have been no repairs on the armory in the past four years. This building is old and because of the heavy weight of equipment which is now stored there, some of the timbers which support the floors of the second story have sagged badly. It will be necessary to reinforce these timbers either by

props from the lower floor or by supports from the roof. To make these necessary repairs, I am requesting five hundred dollars (\$500.00) in each of the coming fiscal years.

The totals of this estimate for both the fiscal years ending 1926 and 1927, are slightly in excess of the request to the last legislature and considerably in excess of the appropriation which was left after the percentage cut was made by the governor. However, considering the rapid growth of the National Guard in the past two years and the contemplated growth of the next two years, I do not believe that this request is unreasonable. Every effort has been made to live within the appropriations for the past two years. Considerable money has been expended by myself and other officers of the National Guard from personal funds. A great deal of work has been done gratis and still it will be impossible to finish the fiscal year 1925 from funds provided. This condition cannot continue and if the present efficiency of the present National Guard is maintained, it will be absolutely necessary to furnish necessary funds for its maintenance.

Respectfully yours,

CHARLES L. SHERIDAN,

Adjutant General.

†This amount has been used for several years and was not on budget.

November 8, 1924.

William Hosking, State Accountant,  
Helena, Montana.

Dear Mr. Hosking:

Attached hereto is the budget estimate of this department for the coming biennium. The earnings of the department from inspection fees on boilers, mines, hazardous plants, etc., have averaged \$28,019.63 per year for the last seven years. We may expect a revenue of \$28,000.00 from this source during each of the two coming fiscal years.

This revenue goes into the Industrial Administrative Fund. There will be no balance in the fund at the commencement of the next fiscal year, for the reason that the operation of this department is paid from that fund as far as the earnings will permit.

Very truly yours,

JEROME G. LOCKE,

Chairman.

JGY-K.  
Enc. Estimate.

Helena, Montana,  
November 14, 1924.

Wm. Hosking, State Accountant,  
Capitol Building,  
Helena, Montana.

My dear Sir:

In compliance with your request I take pleasure in presenting herewith the 1925 legislative budget. As a general explanation of the figures which appear I wish to make this brief explanation of the situation.

The State Entomologist Law was passed twenty-two years ago with an appropriation of \$500.00 per year. The sum appropriated has been increased from year to year until there was appropriated in 1921 the sum of \$3,900.00. A committee of the last legislative assembly in going over the law found and reported that the language of the law made it illegal for the State Entomologist to expend more than the sum mentioned in the original act (\$500.00). Accordingly in the closing hours of the legislature the appropriation was reduced to that sum which was further reduced by the governor's ten per cent reduction to \$450.00. During the previous years an organization had been built up and a competent assistant state entomologist was conducting the work under my direction. The Entomologist of the Experiment Station who is made by the law the State Entomologist receives no compensation for his duties in this office. It is a duty which the said Entomologist has willingly carried from the beginning. It is necessary, however, to have an assistant, some temporary helpers, together with a traveling fund and items for incidental expenses. The damages inflicted by grasshoppers, cut-worms and other insect pests of the state annually amount into the millions of dollars. In some years the trouble is with grasshoppers, in other years some other pest, but there has not been a year during the past nine years when there has not arisen an emergency and we have at no time been organized to adequately meet the situation. While appreciating the depleted condition of the state treasury I would be remiss in my duty if I did not plainly state the needs of this office for the saving which the organization may accomplish will amount to large sums of money.

I shall seek an opportunity to defend this budget before the legislative committee and do not feel the least hesitancy in urging the amount under the circumstances. It is high time that this work be placed on a definite organized basis in the defense of the agriculture of the state.

1112. The State Entomologist receives no compensation. I think the entry under the 1921 column of the budget sheet is in error.

1113. A considerable part of the expense for clerical work in the Experiment Station Entomologist's office grows out of the State Entomologist's work. It is necessary during the summer months to put on an extra clerk to carry the work.

1114. It is desired to appoint an assistant entomologist under the title of "Field Assistant" and it will take at least \$3,600.00 to get a competent man.

1115. The work in the field necessitates a considerable amount of work in the laboratory at home on material that is sent in for examination and study.

1117. The work both in the field and in the laboratory occasions a small amount of ordinary labor.

1118. Under this item I have included temporary assistants to work under our direction in the actual work of saving of crops in the field. One man, the assistant state entomologist, cannot cover the whole state fast enough. It is absolutely necessary when a cut-worm outbreak, grasshopper outbreak or devastation by other pests are in progress that there shall be several men in the field. This applies generally thru the months of May, June, July and August.

1124. During the active season it is necessary to use the telephone and telegraph quite freely.

113. The figure \$1,450.00 conservatively represents the expense that will be incurred in the travel of the men in the performance of their duties.

118 and 119. A moderate amount of laboratory supplies is made necessary.

126. It is necessary constantly for us to purchase books on this very special subject, as they appear. Without being in touch with what other workers are accomplishing in other parts of the world we would have to rely on our own research alone.

Respectfully,

R. A. COOLEY,  
State Entomologist.

†The law states that the salary of deputies shall be \$150.00 each per month. By mutual agreement the deputies under me the last two years, by working on a part time basis have received \$125.00 each per month, and we have been able to function. Therefore, I will not ask for any increase in appropriation of 1923.

November 13, 1924.

Mr. William Hosking,  
State Accountant,

Dear Sir:

Herewith we are transmitting to you the budget asked for by the State Board of Equalization for the two years ending June 30, 1926 and June 30, 1927.

I wish to call your attention to the fact that the amounts specified for the several accounts are slightly in excess of the amount actually expended by this board during the past fiscal year—enough so to cover contingencies in those several items which cannot be foreseen at the present time. In addition we have asked for an additional amount which was not included in previous appropriations, under the heading: "Emergency Appropriation, \$5,000." This is for the purpose of enabling the State Board of Equalization to take care of any emergencies which may arise in the duties devolving upon the board respecting equalization of assessments and taxes in the several counties of the state. It is not at all unlikely that the board will be required to incur considerable expense in the equalization of assessments between counties, which has not been done in the past.

I wish also to call attention to the fact that from the appropriation made by the legislature covering the year ending June 30, 1924, namely: \$59,310, there reverted to the general fund the sum of \$20,112.98, using the expenditures shown as per your books.

It is the policy of the State Board of Equalization to use only that part of the appropriation which is absolutely necessary. The board has no disposition to spend more than is necessary in the proper conduct of the office, and will take especial pride in turning back to the general fund as much of the appropriation as is possible.

Very truly yours,

STATE BOARD OF EQUALIZATION,  
R. D. Miller, Secretary.

RDM-GD

a—Salary Fixed by Law.

November 12, 1924.

Mr. William Hosking,  
State Accountant,  
State House,  
Helena, Montana.

Dear Mr. Hosking:

I am writing you in explanation of the budget which is being presented to you by Mr. A. D. Thomas, account.

This budget includes estimates of expenditures for the next two fiscal years following July 1, 1925, regardless of the fact that a part of the items so listed are paid by earnings and income of the various divisions of the department.

For the fiscal year ending June 30, 1924 the fees and earnings of the Montana Department of Agriculture amounted to \$34,904. Of this sum, \$25,798 was the sum collected by the Division of Grain Standards and Marketing, whose principal sources of revenue are: 1. License fees of grain elevators and grain dealers; 2. Fees for inspection of grain elevator scales; 3. Inspection fees collected by the grain grading laboratory at Great Falls. The Division of Horticulture collected \$6,602. The income for the current fiscal year in this division has been considerably reduced by the smaller number of apple inspections made, due to the killing frost in the Bitter Root Valley. The Dairy Division turned in \$2,504.

These fees and earnings, I believe, can be depended upon to return approximately \$30,000 a year. The Legislature in 1923 appropriated a fixed sum for the Department of Agriculture and then appropriated to the use of the department all fees and earnings, in addition to the sum appropriated from the general fund.

The total estimated requirements for each year of the biennium starting July 1, 1925 is \$79,860 against which will be an offset in earnings of from \$30,000 to \$35,000 which will be taken into consideration by the Legislature in making the appropriation.

In making this budget estimate we have put in the amounts necessary for the department of agriculture to accomplish the duties imposed upon it by law, in an efficient manner. The net result is an increase over the amount that has been available for the department during the last two years. If these items are reduced the department of agriculture will simply have to limit its work accordingly as we have had to do during the last two years. For example, the budget allowance for the Division of Labor and Publicity includes the cost of certain important state publications that should be maintained, but which cannot be printed under reduced allowance for that division.

There is a \$2,000 item carried in the budget for state aid to poultry shows. This is a nice thing and I am satisfied it has been well worth while in the past, but of course, it could be dispensed with.

The heaviest items of expense are in the divisions of grain standards, and horticulture, both of them covering a wide field. The grain division, up to date, has been entirely self-supporting, and the horticulture work about 40 per cent so. Our cost of operation in the division of horticulture during the present fiscal year has been greatly reduced and I am satisfied that the budget allowance of \$21,175 for horticulture can be reduced, although not without seriously curtailing the state's work with fruits and vegetables and quarantine enforcements.

In the budget of the general administration of the commissioner's office is an item of \$1200 for the accountant. This needs some explanation. This accountant is assistant secretary of the Montana State Fair who divides his time between the State Fair and the department of agriculture. It could be eliminated from the commissioner's budget, provided it is taken care of in the appropriation for the Montana State Fair.

This indicates a few places where the budget might be reduced. It is also important to bear in mind the income from fees and earnings as set forth in this letter.

Yours very truly,

CHESTER C. DAVIS,  
Commissioner.

ccd-b

FINANCE—BUDGETS:

Mr. William Hosking,  
State Accountant,  
The Capitol,  
Helena, Montana.

Dear Sir:

I am returning herewith this department's 1925 legislative budget.

The last budget as submitted by this department to the legislature, amounted to \$45,550.00. The budget herewith submitted, amounts to \$46,475.00, or \$925.00 more than the last one. This department has handled more business than ever before in its history, during the past two years; and during the past twelve months, has become definitely responsible for over 100,000 acres more of State Forests, which have been consolidated and recently passed to the title of the State. These new State Forests comprise valuable State property worth at least five or six million dollars. The total area of State Forests is a little over 560,000 acres.

For the past two years, an accurate cost record by projects has been kept, which conforms to the nature of the work performed by the department, and we therefore think that we are in a position to justify every item in the budget.

Very truly yours,

R. P. McLAUGHLIN,  
State Forester.

RPMcL-B

The increase asked for in the budget requests of the State Orphans' Home for the Biennial period 1925-26 and 1926-27 is due to the fact that the normal increase in our population will be more than ten per cent. The requests are based on past expenditures.

The books at this institution have not been set up under the standard classification as shown in all other departments of State. The classification used herein is made to conform as near as possible to the standard classification.

										L. A. F.				
* Group Totals														

\*—Group Totals.  
The refund of contingent money which was advanced in a previous year was charged back to the appropriation. No deduction from any items were made because of the irregular refund of expenses.  
The only increase asked for is \$1,200.00 each year for an instructor No. 2116 in Auto Mechanics as allowed by the State Board of Education.

NOTE—I wish to draw your attention to the reason for the \$16,800.00 request against account No. 1112 (physicians). This estimate was handed in by the Superintendent and consists of a full staff of seven physicians for the ensuing two years. The item of Account No. 114 (publications) is to cover the expense incurred for the annual report to be made up during that period. You will note that we have asked for \$1,000 in the first period against account No. 3237, which covers laundry machinery and appliances. This amount was asked for by Mr. Barber to cover expenditures for an extra laundry washer. The only other expenditure that the officers of this institution think necessary will be against furniture for officers, as they claim that the furniture at the superintendent's residence at the present time is not complete enough should he have a family.

41	Total Operation .....	*	54,373.72	35,276.78		47,000.00	47,000.00							
4	Total Subsistence .....	*	54,373.72	35,276.78	58,100.00	47,000.00	47,000.00							
	Insurance Prepaid .....			3,285.48		4,000.00								
	GRAND TOTAL		\$174,793.80	\$124,554.50	\$133,876.00	\$132,375.00	\$122,375.00	\$132,375.00	\$122,375.00	C. T. S. L. A. F.				
	Current Assets (From Schedule 4) .....		34,834.83	8,940.38										
	Net Income (From Schedule 2) .....		148,899.35	179,628.22										
	Total Available for Year .....		183,734.18	188,568.60										
	Less Expenditures as Above .....		174,793.80	124,554.50										
	Unexpended Balance .....		8,940.38	64,014.10										
	Expenditures from General Fund .....		174,793.80	124,554.50										
	Expenditures from Other Funds .....													

NOTE—The requests as they stand now have been practically cut down to the bone. You will observe that we are asking for \$132,000.00 for the first year and \$122,000.00 for the second year. The first year after subtracting capital expenditures and insurance leaves \$114,000.00 for operation which is \$21,000.00 more than we expended for the year of July 1st 1923 to June 1st, 1924, and as we will have over thirty children to take care of in addition to the regular patients you will see that we will have to cut the corners very closely to get by.
